

Atelier Plastic Surgery

**You are still beautiful and
You will be more beautiful here.**

The Art of Plastic Surgery by Dr. Go Ju-young

From Aspiring Sculptor to Master Surgeon

The journey of Dr. Go Ju-young is a rare fusion of two worlds. What began as a path to becoming a fine arts sculptor evolved into a lifelong dedication to the science and artistry of plastic surgery.

This dual perspective informs every decision, blending a sculptor's eye for form and balance with the precision of a medical doctor and PhD.

Dr. Go Ju-young

Plastic Surgery Specialist
PhD in Medicine

Our Atelier is a Space for Artistry, Not Just Surgery.

At Atelier Plastic Surgery, we believe the highest form of beauty is one that is authentic to you. Our approach is not about creating a new person, but revealing and refining the masterpiece that already exists.

Located in the heart of Seoul's Seorae Village, our clinic is a private studio where medicine and art converge to create natural, harmonious results.

The Surgeon's Craft: Areas of Surgical Mastery

Revisional Surgery

So it can be the last one.

Postpartum Body Contouring

For a true transformation.

Eye Surgery

unique know-how.

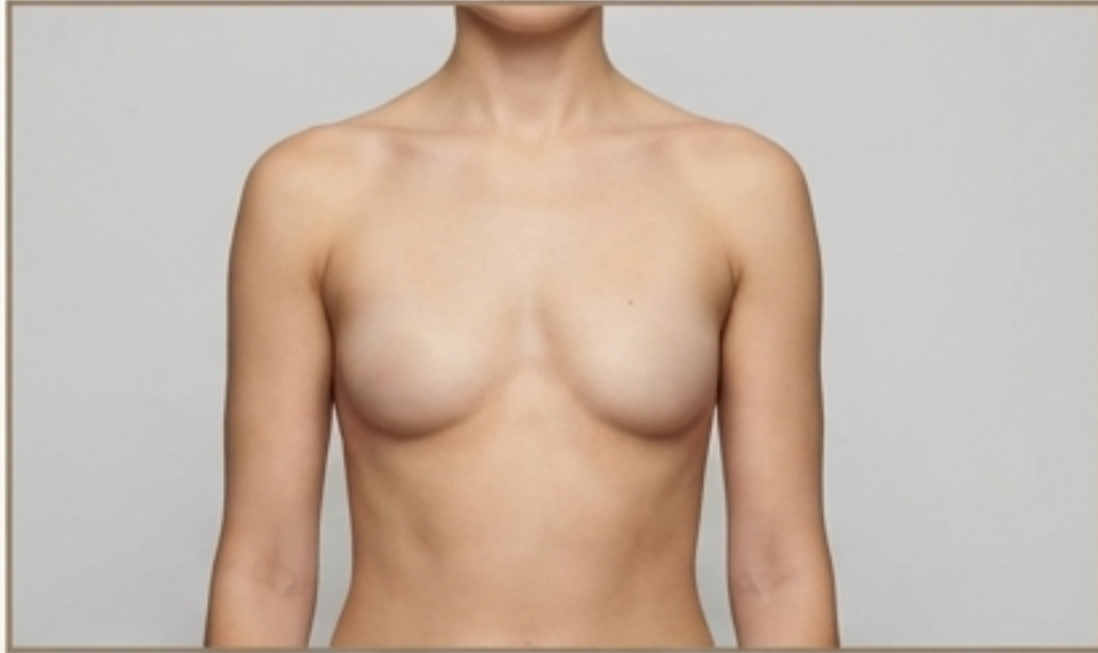

The Gallery: A Portfolio of Our Work

*“Do not simply compare plastic surgery case photos!
Check the specific surgery details too.”*

Our results are a testament to our philosophy. In the following examples, we share not only the transformation but also the thoughtful process behind it. We invite you to see the nuance and care in every case.

Case Study: Breast Augmentation for a Fitness Model

Before

After

Patient's Goal

To achieve a fuller, more balanced breast shape that complements an athletic physique without compromising muscle definition or appearing unnatural.

The Surgical Plan

A meticulous approach was designed to match the patient's specific goals and anatomy. Key considerations included preserving pectoral muscle function essential for her profession and creating a natural contour that harmonized with her toned body.

- Procedure: Motiva Ergonomix™ Breast Augmentation
- Placement: Submuscular (Dual Plane)
- Incision: Inframammary Fold

Notes from the Atelier

"A small, precious, and cute gift that a patient shyly told me she made herself. Aren't you so talented?"
♡"

– From Jin**

A testament to the personal connection and shared appreciation for craftsmanship.

"Everyone who has surgery at our Atelier is so peaceful the day after surgery that they bring a full handful of snacks with both hands~ Your surgery went very well, so let's work hard on your recovery ^^♡"

– From Lee**

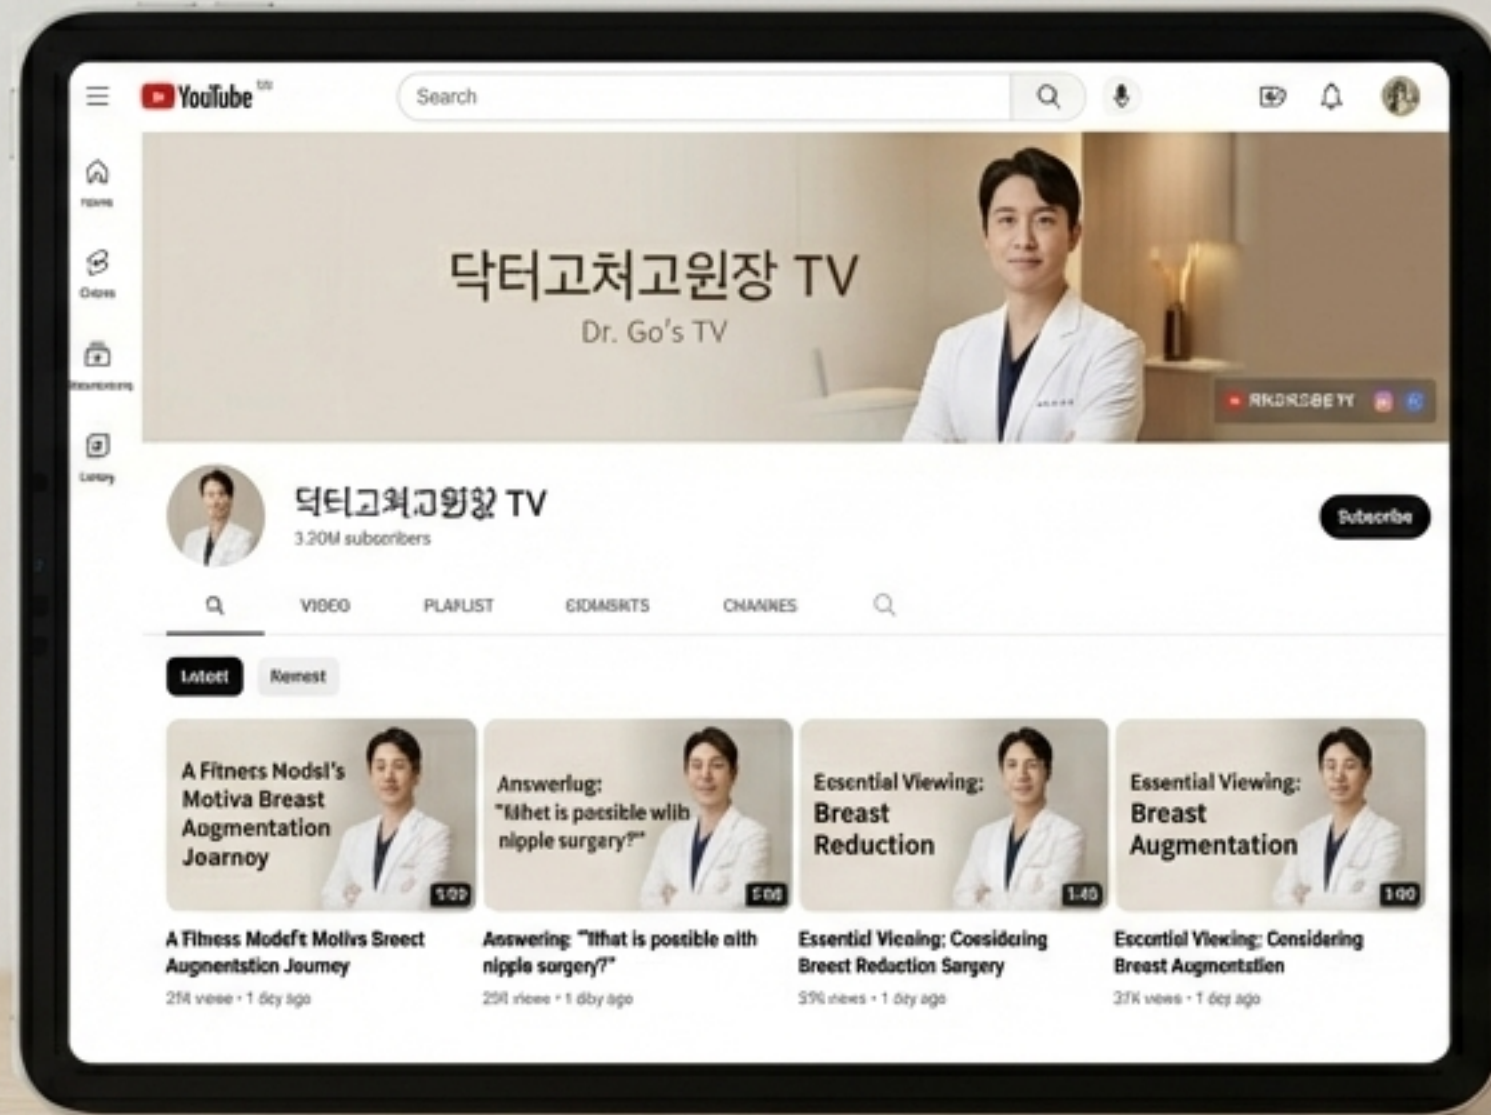

Highlighting patient comfort and the caring atmosphere of the clinic.

The Studio Sessions: An Open Dialogue with Dr. Go

We believe in empowering our patients with knowledge. On his channel, Dr. Go shares insights, answers complex questions, and demystifies procedures in a clear and honest way.
